

# RiskCede REPORTS

A visual representation and presentation of the data to facilitate the understanding thereof and to inspire and motivate the audience to embark on a course of action.

## What is RiskCede REPORTS?

RiskCede REPORTS provide insights into data. It detects trends and monitors for any deviation from expected values. It contains numerous reports on benchmarking and profiling; fraud, waste and abuse and simulations and forecasting.

REPORTS is online and interactive so users can perform their own analysis. It also uses models to send users notifications on all identified areas of interest or new findings. Custom reports are also created for client specific needs.

REPORTS transforms numbers into narrative to guide the non-data-expert to take the right actions.

## RiskCede REPORTS In Action

Daily [report](#) monitoring and notifying of claims and operations.

[Reports](#) and [dashboard](#) for specific investigations.

**Benchmarking:**  
Scheme - Utilisation,  
Providers - Profiling,  
Members - Actual vs Expected

**Simulations to measure impact**  
of changes to rules or  
contributions.
